GOWTHAM VISVANATH S

Full Stack Software Developer

+91 9787424451 | gowthamdpart@gmail.com | www.gowthamsm.com | Bengaluru, India

PROFESSIONAL SUMMARY

Full Stack Software Developer with 3+ years of experience building responsive web applications, RESTful APIs, and database-driven systems for enterprise and freelance clients. Proficient in JavaScript, HTML, CSS, Java, C#, and .NET, with hands-on experience across MySQL, MongoDB, and Git-based workflows. Known for rapid technical growth, strong ownership of production issues, and the ability to bridge complex back-end systems with clear, usable front-end experiences.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, Java, C#, .NET, HTML, CSS

Web Development: Full-stack development, responsive UI, front-end development, back-end integration

APIs: RESTful API development, API integration, third-party API integration

Databases: MySQL, MongoDB, database design, database management

Tools & Practices: Git, version control, code review, debugging, troubleshooting, SDLC, deployment support, requirement gathering, project coordination, client communication

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer — Upwork · Remote *Jul 2025 – Mar 2026*

- Developed custom full-stack web solutions aligned with client requirements, usability goals, and project scope.
- Built responsive user interfaces using HTML, CSS, and JavaScript, following front-end development best practices.
- Translated evolving client needs into practical technical updates while maintaining delivery discipline and clear communication.
- Managed client communication, progress updates, and feedback collection to drive iterative improvements in delivery quality.

Full Stack Software Developer — Miebach Consulting Pvt Ltd · Bengaluru, India (On-site) *Jan 2023 – Mar 2025*

- Developed responsive web applications using JavaScript, HTML, CSS, Java, C#, and .NET frameworks.
- Implemented RESTful APIs to enable reliable data exchange between front-end interfaces and back-end systems.
- Integrated third-party APIs and external services, enhancing application functionality, workflows, and user engagement.
- Designed, maintained, and optimized relational and NoSQL databases using MySQL and MongoDB.
- Collaborated with cross-functional teams to gather requirements, define scope, support testing, and deliver releases.
- Conducted code reviews to improve reliability, maintainability, readability, and adherence to development best practices.
- Troubleshot software issues, production defects, and deployment blockers to support stable application delivery.
- Used Git for version control, collaborative development, source code management, and release coordination.

PROJECTS & PORTFOLIO

Portfolio: www.gowthamsm.com — central portfolio with GitHub projects and demonstrations of full-stack development work.

- Highlights practical software engineering work across responsive UI development, API integration, and database-driven applications.
- Provides recruiters direct access to project examples, code repositories, and development outcomes.
