Software Engineer | .NET, React, Azure & NoSQL | Enterprise Support & Deployments

## Professional Summary

Software Engineer with over 2+ years of enterprise deployment experience at Miebach Consulting. Proven expertise in cloud-native development utilizing the Azure ecosystem (Function Apps, Service Bus) and NoSQL architectures (MongoDB, Cosmos DB) for complex querying and reporting. Strong background in client-facing environments, executing rigorous Root Cause Analysis (RCA), and resolving critical production issues within strict SLAs. Familiar with DevOps deployment pipelines, REST API integrations, and core networking principles.

## Technical Skills

- **Cloud & DevOps:** Azure (Function Apps, Service Bus), CI/CD, Automated Builds & Deployments (Jenkins/DevOps principles)
- **Backend & API:** .NET, C#, REST APIs, Node.js
- **Frontend:** React, Angular, TypeScript
- **Databases:** NoSQL, Cosmos DB, MongoDB, MS SQL
- **Operations:** Root Cause Analysis (RCA), SLA Management, Client Communication, Enterprise Networking Principles

## Professional Experience

**Miebach Consulting** | Bangalore, India | *IT Consultant (Previously: Associate IT Consultant)*  
| Jan 6<sup>th</sup> 2023 – March 31<sup>st</sup> 2025

- Engineered and maintained enterprise-grade web applications leveraging **.NET** and **React**, building and consuming **REST APIs** to ensure seamless frontend-to-backend integration.
- Deployed and managed cloud-native services using **Azure fundamentals**, specifically implementing **Azure Function Apps** for serverless execution and **Azure Service Bus** for reliable message queuing.
- Designed and maintained **NoSQL** databases, utilizing **MongoDB** to execute complex queries, generate system reports, and perform high-volume data updates.
- Acted as the primary client-facing engineer for critical supply chain software, performing rapid **Root Cause Analysis (RCA)** and troubleshooting live production issues strictly within client **SLAs**. Got 3 times the **Bar Riser** Award during my work tenure.
- Supported **DevOps** operations by maintaining build processes, monitoring automated deployments, and ensuring stable release cycles across various environments.
- Applied core **networking principles** to identify latency bottlenecks, troubleshoot distributed system connectivity, and optimize database-to-application communication.

## Education

**SRM Institute of Science and Technology** | Chennai, TamilNadu [*Bachelor of Technology in Electronics and Communication*] | 2019-2023
